GRETNA TO GET PERMANENT SITE

This Unpleasant News is Rumored by the Philadelphia North American. Says Gettysburg will Get no More Encampments.

Sunday's Philadelphia American gave the following

"For the purpose of establishing a permanent camp ground for the National Guard, it is said that the state of Pennsylvania has purchased a large additional tract at Mount Gretna, and it is probable that all camps, division and brigade, will in the future be held there, and that Gettysburg will be abandoned.

"For a number of years it has been customary to hold division camps at Gettysburg every two years, the alternate years being devoted to brigade camps only. The encampment of 1910 would be in the natural routine a general division camp, but it is probable that at least one brigade will spend the time with the Regulars either at Pine Plains, N. Y., or on one of the battlefields of Virginia.

"The state, it is understood, has because the country is admirably Normal School. adapted to maneuvers and the playing ducive to order. Order was so perfect all other days its functions were almost entirely ornamental.

STRIKE RIOTS IN PHILADELPHIA

Scores of Trolley Cars Wrecked and Burned.

CROWD HOSPITALS INJURED

Rioting Occurred All Over the City and the Police Were Helpless to Quell It-Three Children Seriously Injured, Two Probably Fatally.

Philadelphia, Feb. 21.—The trolley car strike which took place on Saturday led to the most vicious rioting Philadelphia has seen for years. The hospitals are filled with persons who were shot or beaten, mostly victims of bullets, bricks or paving stones.

The outlook was so alarming Sunday afternoon when the Philadelphia Rapid Transit company withdrew every one of its cars from service and sent them to the barns that Mayor Reyburn authorized Henry Clay, the Gettysburg, Pa director of public safety, to recruit 1000 extra policemen. The regular police force of 3300 was utterly unable to smother the trouble, despite the bland announcement of the director that he had the situation well in hand. The indications are so plain that the Rapid Transit company intends to give C. O. Pratt and the striking conductors and motormen all the fighting they want that sober-minded citizens are considering already the advisability of asking the governor to lend a hand with the state constabulary. The police force did not cover itself with glory last June, when there was much less of a storm at any stage than broke out Sunday, and there is a distinct fear that Clay and Tim O'Leary, his assistant, even with 4000 extra men, may not be able to make the streets safe for citizens. There was never a day in the strike of nine months ago when things looked as ugly as they do now.

in twenty places at once has indicated 100 furnished by the police included that those familiar with the attitude only those who got hospital treatment. of the company and of the strikers that unless somebody with a strong hand steps in, Philadelphia is in for big trouble.

Cause of the Trouble. Briefly, the situation is just this: The former strike was settled by a compromise that pleased nobody. The Rapid Transit company and the strikers were brought together by Jim Mc-Nichol, the Republican boss, because an election was imminent and Philadelphia was disgusted with the attitude of the machine. The company built up a local union of employes called the Keystone Carmen, and by a system of rewards succeeded in weakening the Amalgamated union. The company kept to its promises and in many instances paid a higher scale than the compromise agreement called for. C. O. Pratt, who is always around company's policy was to destroy utterly the old union. They sought for a pretext to strike. The company gave it to them by discharging upwards of 200 men who had been stealing or were neglecting their duties, according to the street car company's offi-

Boss McNichol and Billy Vare, the ring masters of the Republican caucus in this city, saw the trouble coming a week ago and decided that Florida was good enough for them. They slipped out of town, and with their going people who realized how serious matters were going gave up all hope that the Republican machine would interfere as it did last summer.

President Murphy, of the Centra! Labor union, says he has the power to call out 100,000 men, which would tie up or cripple every industrial establishment in the city practically.

Policemen Battered.

All of the police stations were noisy with strikers and strike sympathizers, who had been dragged out of fights and hauled to jail by the nape of the neck. Occasionally returning patrol wagons or automobiles would bring in policemen who are not likely to take part in the forthcoming shindies. Many of them had cut faces, one or two had broken noses and all had been banged about and hammered until they were not pretty to look at.

The area of dioting was so immense that the police had a desperately difficult problem on their hands. Several times during the day there were fights, in which more than a thousand persons were taking part, occurring simultaneously in a dozen far separated localities. The northeast and north west were alive with trouble. It ran as far south as Girard avenue. Kensington was a particularly riotous section and there much of the trouble took

Two street cars were burned by strike sympathizers, another was fired but saved from destruction, and scores were wrecked, windows broken and fronts smashed in.

The tactics employed by the strtk ers were practically the same every where. They tried to pull the loyal The One Minute and the White Line of Washing Sometimes they succeeded, but very conductors and motormen off the cars. often the car operatives showed spunk and turned on the current. Then the strikers would throw bricks. smashing windows and sometimes heads. They rolled crossties and rails on the tracks and blocked car lines. Time after time the police were so greatly outnumbered that they were driven back with torn

fight, and the car was burned. An eleven-year-old boy named Samson Sklenow, was riding in a Franklinville car with his bother. At Eighth and McKean streets a crowd of 1000 or more surrounded the car and began to bombard it with bricks and paving stones. The passengers got down on the floor and tried to dodge the mis siles and the shattered glass. A brick hit the Sklenow boy on the side of the head and fractured his skull. He will and thus avoid the tremendous exprobably die.

Girrad and Lancaster avenues were main lines of trouble. Every car that passed along these thoroughfares ran the gauntlet of bricks and stones. Occasionally a bullet crashed through a window. There was not much riding on these cars. At Lancaster avenue and Forty-fourth street the firemen went to the rescue of the police, drenching the rioters thoroughly.

A dozen riots, two of them long continued and bloody, marked the progress of the strike in South Philadelphia. Nearly every car that the com pany tried to run in that section of the city was battered and mashed. Onc car was set on fire. In South Philadelphia alone twenty persons were so badly hurt that they had to be sent to the hospitals. Here, as elsewhere all over the rim of the city, many were hurt whose names the police could not even attmept to get, and whose injuries were treated in drug stores or The widespread violence that broke at their own homes. "TYPHOID MARY" MUST **GET A NEW JOB**

Released From Quarantine After Three Years.

New York, Feb. 21.-Mary Mallon, flippantly referred to as "Typhoid Mary," has been released from quarantine on North Brothers Island by order of the health department, with the proviso that she is not to seek employment as a servant in this city. For the last three years Mary has

lived secluded in a lonely hut on the state of affairs. Medical men say that, although Mary has never suffered from typhoid fever, bacilli of the typhus whose house she has lived.

At one time she was employed as cook in the household of J. Coleman Drayton. While there some of the bacilli transferred their residence from suasion, "Typhoid Mary" was consigned three years ago to North Brothers Island by the health department. The other day the health department let her go on its own initiative.

Health Commissioner Lederle said that "Typhoid Mary" was dangerous principally because as a cook she had spread disease germs. She has agreed he said, to engage in other work and will report frequently to the health department so that they may know whether she is still subject to germ spreading proclivities. Meanwhile cooking as a means of livelihood for Mary is strictly tabooed.

Nervous Prostration

"I suffered so with Nervous Prostration that I thought there was no use trying to get well. A friend recommended Dr. Miles' Nervine, and although skeptical at first, I soon found myself recovering, and am to-day well." MRS. D. I. JONES,

5800 Broadway, Cleveland, O. Much sickness is of nervous origin. It's the nerves that make the heart force the blood through the veins, the lungs take in oxygen, the stomach digest food, the liver secrete bile and the kidneys filter the blood. If any of these organs are weak, it is the fault of the nerves through which they get their strength. Dr. Miles' Nervine is a specific for the nerves. It soothes the irritation and assists in the generation of nerve force. Therefore you can hardly miss it if you take Dr. Miles' Nervine when sick. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

TERRIBLE CROUP

New Ear Corn

My little boy, who is four years old, has suffered a lot with croup. On several occasions we thought he was gone.

After trying all the old time remedies and most of the new, I came home one night at midnight, and my wife said,
"The boy has the croup again—suppose
you get a bottle of Hyomei". "More
jnnk," I said, "but we will circulate our noney so they all will get some."

I hastened to an all night drug store brought it home. In five minutes he was breathing easier. In fifteen minutes he was sound asleep. It broke the croup so quickly it scared me.

Anyone wishing to cure the croup of a child I hope will give Hyomei a tria!.

Wishing you the best of success, which you surely deserve, I remain, Jos. E. Clark, 204 6th St. S. E., Washington, D. C. Oct. 7, 1909. Hyomei is a remarkably effective rem-

edy in case of croup and it should be in every home where there is a croupy child. Full instructions how to cure croup comes with each outfit.

the Program.

Profitless Session of National Lawmakers May End Without Much New Legislation.

Washington, Feb. 21.-Congress may adjourn by May 1. The leaders in both houses are confident they can carry out the program agreed upon by that Per 100 time. The general legislation to be 1.30 enacted is a matter they are not wor-1.50 rying about, for they really don't care whether any general legislation gets through. They are going to pass the regular annual appropriation bills and, perhaps, a river and harbor bill, and with that they will be entirely satis-

Back Down on Bank Bill.

In order to get any kind of a postal savings bank bill at all, the president has been forced to agree to propositions that will make the measure of doubtful constitutionality, according to the president's own view as set fort a in his New York speech. After much arguing with Senator Smoot, the president and Senators Aldrich and Root have induced the Utah senator to withdraw his amendment designed to prevent the drawing of the savings funds from the localities where they were deposited to New York and other big money centers. If this amendment were left in the bill, according to the president and his senatorial advisers. it would have made the law unconstitutional, besides rendering it very objectionable to the interests.

But Senator Smoot did not consent to the with Irawal of his amendment until assured that the Root amendment would also be withdrawn. This amendment provided for the investment of the savings funds in governtor holds that, without such a provision in the act, it would be unconstitutional. The president coincided in this view. But he has now agreed to the withdrawal of the Root amendment bacause assured in no other way could the bill be passed through the senate. So as the matter stands, the president is willing to accept an unconstituof legislative accomplishment for

Fight Ahead In the House.

But when the bill gets through the senate in this assumed unconstitutional form it will have to run the gauntlet of the house, where the outlook for its adoption is by no means good. If it secures the indorsement of the house at all it certainly will not be in the form in which it now seems likely to pass the senate. There will be a long and hard struggle over it and. when it goes into conference, a further struggle will ensue. It will surprise no one if the bill be held in conference until adjournment and then allowed to go over to the short session of next winter.

The statehood bill is in even more serious danger of defeat than the posdon't want the bill to pass, and, if they can encompass its defeat they will do so. Sour Cream. Some dairymen let cream sour before churning, but why? So the butter will be better flavored and keep better, they say. Yet they are mistaken. It keeps decidedly better when churned from pasteurized sweet cream and is less likely to have objectionable flavors. Government experts have given much time to working out this problem, and such is their answer. Butter for the United States navy is made from sweet pasteurized cream, and it gives good satisfact n. Remember that the cream must be pasteurized.

AS GIRL ACCUSES G. W. Weaver & Son SEYLER SILENT

"You Killed My Sister," Cries Alice Adams.

DENIAL ANSWER

Suspect In Atlantic City Pier Murder Stained Clothing.

Atlantic City, Feb. 21. - William Seyler made no answer when he faced Alice Adams, who accused him of killing her sister Jane on the night of Feb. 4. He could not look the girl in the face, and neither could he keep his eyes on some blood-stained garments of Jane's, which were placed before him by Chief of Police Woodruff, who began again the "third degree" inquisition, which so far has been successfully resisted by Seyler, who now shows unmistakable signs of weakening.

Everybody who has had anything whatever to do with this mysterious case is absolutely convinced that Wil liam Seyler was alone with Jane Adams on the Million Dollar pier the night she met her death. Why he per sists in maintaining this position puz zles the police, who say he is only making the case against him more strong. And so far he has not given the police a reason for his flight.

Police Chief Grills Prisoner.

Chief Woodruff gave Seyler another harrowing "third degree."

"Seyler," said the chief, when the prisoner was brought before him, "the Bible says that the guilty flee when no man pursueth. You fled after Jane Adams died and before anyone was after you. Why did you leave town? Seyler did not answer.

"I'll tell you why," the chief con tinued. "You fled because you knew Jane Adams was dead. If you were not with her, and you keep on telling us you were not, then why did you leave town? But you were with her and you knew she was dead when you left town. Now you must have done something to be afraid of, or you would never have left town.

Seyler kept his eyes on the floor and made no answer. Then the chief thrust some of the bloodstained gar ments of Jane Adams into Seyler's hands

Some observations which have been made by the poultry department of the Maine Agricultural college show that eggs from hens kept in houses with curtain instead of tight board fronts are not only more fertile, but produce a larger per cent of strong chicks. This is attributed to the fact that with the curtain front the houses are better ventilated and result in a more vigorous physical condition on the part of the hens, which accounts for eggs of greater vitality.

As Many Local People Are Testifying. The Root Juice instructors made many lasting friends while here. Their wonderful remedy has done worlds of good at this point and reports of cures are being circulated from every direction. The drug store is more busy than ever wrapping up Root Juice and listening to the many flattering reports of the great good it is doing. Mrs. Sarah Collins said: "I used to bloat so at times I could hardly get my breath; sour gases would form in my stomach and dull, heavy headaches were at times so bad 1 felt I would go crazy; my tongue coated and I always had a bad taste in my mouth.
